ABSTRACT

- 7 Examples and usage notes of a working bibliography style sheet that con-
8 forms to all American Meteorological Society journal standards.

9 **1. Bibliography type listings**

10 Article, one author: (Jin 2012)

11 Article, more than one author, no repeated author: (Adachi et al. 2014)

12 Articles, same first author, < 8 authors: (Basara et al. 2008, 2010)

13 Article, > 8 authors: (McPherson et al. 2007)

14 Book: (Journel and Huijbrgts 2004)

15 Chapter in book: (Klein 2012)

16 Book, with volume: (Monteith 1976)

17 Book volume, with complete work name: (Petterssen 1956)

18 Chapter in book volume, with complete work name and editor: (Turkey 1993)

19 Conference proceedings: (Matsui and Tao 2007)

20 Conference proceedings, > 8 authors, repeated all authors, same year: (Benjamin et al. 2004a,b)

21 Technical report: (United Nations 2015)

22 Technical report, multiple same authors : (Chou and Suarez 1999; Chou et al. 2001)

23 **2. Usage notes**

24 For journals with non-standard page identifiers (such as in Basara et al. 2008), use the "code"
25 field in your .bib file to include this identifier properly. If it's included in the "pages" field, it will
26 be incorrectly appended with "pp".
